

# Preliminary capital gains distribution estimates

Frontier Funds will distribute short-term and long-term capital gains to shareholders of record on December 26<sup>th</sup>, 2024 and payable December 27<sup>th</sup>, 2024.

To estimate the distribution for a fund on this list, multiply the fund's total per-share capital gains estimate by the number of shares your client owns. Note that these amounts are only estimates and are subject to change due to wash sale and other tax adjustments, as well as shareholder activity. Actual year-end distributions may be higher or lower. The Funds will also need to distribute net investment income, we do not have those estimates at this time.

For more information about Frontier funds visit [frontiermutualfunds.com](https://frontiermutualfunds.com) to obtain a prospectus or, if available, a summary prospectus. Investment objectives, risks, charges, expenses, and other important information are contained in the prospectus; read and consider it carefully before investing.

All investing is subject to risk, including the possible loss of the money you invest.
